ML & AI Engineering | Data Science | Recommender Systems | Search
Business Analytics | Experimentation

Experience

2024 – Present	**Building AI-powered athletic performance analytics platform**
2024.01 – Present	**Senior Team Lead (Lector),** Turing College.

- Leading stand-ups, consultations, and project reviews in AI, Data Science and Analytics courses
- Mentoring learners, contribution to the study program

2020 – Present	**Lead Data Scientist** / **ML Engineer,** Vinted.

- Developing recommender systems and search models at scale
- Building ML pipelines, running A/B tests, and optimizing retrieval/ranking
- Leading various high impact projects

2019 – 2020	**Data Scientist,** Brolis Sensor Technology.

- Created predictive models for non-invasive blood constituent detection (glucose, lactate, ethanol)
- Designed and Engineered ML approaches for absorption spectra analysis

2017 – 2019	**Business Financial Controller** (Avon, Headex).
2015 – 2017	**Team Lead Business and Finance Analytics,** Alma Littera Group.
2013 – 2015	**Data Analyst Roles** (Ermitažas, Lietuvos Draudimas).

Education

2017	**MSc, Econometrics (Data Science)**, Vilnius University, Faculty of Math and Informatics
2012	**BSc, Financial and Actuarial Mathematics**, Vilnius University, Faculty of Math and Informatics
2008	**Juozas Balčikonis Gymnasium**, Panevėžys

Certifications and Professional Development

Conferences	Recommender systems (Amsterdam, Singapore, Bari), Haystack, Berlin Buzzwords, MIT CODE
Certifications	Docker and Containers (2023), Python for Production (2022), Deep Learning (2022), Applied ML (2022), Personalized Recommendations (2022), Search with ML (2022), Search Fundamentals (2022), SQL for Data Science (2020), Python for Data Science (2019)

Skills

ML/AI	Recommender Systems, Search Relevance, RAG, LLM, Agents, Vector Search, Information Retrieval, A/B Testing

Skills (continued)

Programming/Tools	Python, PyTorch, GO, Scala, dbt, GCP, SQL, Vespa, ElasticSearch, Docker, Kubernetes, Git, Looker
Languages	English (Proficient), Lithuanian (Native), French (Basic), Russian (Basic)
